Subject: Wealth from Waste Competition (Class III to VIII)

Dear Parents & Students,

Waste Management plays an important role in creating environmental awareness amongst the future generation. Recycling and reusing valuable waste material can result in the development of fantastic and usable products. Rather than putting these waste materials into landfills, various innovative and creative ideas can be put together to bring something new and useful.

This Competition will Help in generating awareness and building the attitude to take up activities in the real world. It enables the students to give this creativity & innovation a shape. It Reduces the destruction of forests & other ecosystems. It Develops the sense of using the ecosystem.

This is to inform all Parents and students that **STEM School** is organizing a **Waste Management Competition** for classes III to VIII on **25th October 2024** i.e. on Friday.

Students need to enroll the names with the help of class teachers on or **before 19.10.2024.**

Note: Thermocol and Plastic should not be used in making products. Products to be prepared at home with the help of parents. All the products made from waste to be submitted to class teacher on or before 21.10.2024 without fail.

For more queries, please contact Mrs. Jyothsna & Mrs. Deepika

Regards,
STEM School.
