Sub: Storytelling Competition for Classes Nursery to II.

Dear Parents & Students,

Season's greetings!

Storytelling is an art, and listening to it is educational entertainment. Thus, we use every chance to encourage our kids to read, to arouse fresh amazement in them while encouraging the development of their delicate imaginations. As a follow-up to this effort, we are planning an **English Storytelling competition** for **classes Nursery to II** according to the schedule shown below.

S. No	Date	Class	The kind of story to be selected	Maximum No. of Words
1	25/10/2024	**I & II**	Moral Stories	100-200 words
2	26/10/2024	**Nursery to K2**	Moral Stories	100-150 words

Guidelines:

- Each and every story is to be recited with a moral.
- The story should strive to be neutral and objective.
- The participant can choose any story from the English language.
- The story should not last more than 180 seconds.
- Instead of learning the story word to word, storytellers are encouraged to tell in their own words to capture the essence of the story.
- Props are optional and should be managed by the students.

The criteria for evaluation will include introduction (of oneself and one's story), voice modulation, confidence, speech clarity, expression, and overall presentation.

we ask for our parents' support and engagement to enable our young ones to successfully navigate the stories. Students who are interested must register their names with the assistance of their class teachers by **October 21, 2024.**

Please get in touch with *Mrs. Niharika, Preprimary coordinator*, if you have any additional questions.

Regards,
STEM School.
